Pursuing a fullstack backend/frontend web developer fulltime position in ASP.NET/C#

## Technical Skills

- Proficient in C#, ASP.NET MVCv5, SQL, HTML, JavaScript, PowerApps, Excel and Access
- Database Design and Programming with SQL certificate via Oracle's Academy
- Java Programming certificate via Oracle's Academy
- Mid-level in JavaFX, 32-bit Assembly, Python, Linux, C++, C, and JavaSwing

## Background

- Able to communicate with team clearly and focus on the bigger picture
- Russian native speaker and writer
- Letters of Reference available on request

## Work Experience

### IT Assistant and Developer

Mid-Willamette Valley Community Action Agency (MWVCAA) Jun 2019 – Aug 2019

- Developed a [mini web-app credit planner](#) for MWVCAA's Child Care Resource & Referral saving them \$5,000, while increasing productivity and efficiency for credit calculations
- Designed a [database schema](#) for the Home Youth & Resource Center branch
- Fulfilled IT-related tasks including wiring data cables, prepping network service sites, repairing computers, updating & refreshing software in mass, creating tickets in Spiceworks

### Picker & Tote Runner

Amazon Fulfillment Center – Troutdale, OR Aug 2020 – Sep 2020

## Projects

### Full Stack Developing, Database Design & SQL

Sep 2019 – Jun 2020

- Developed a fully functional website, [Beyond The Tutor](#), for WOU's tutoring center in Visual Studio using ASP.NET MVC 5, SQL Server, JavaScript, C#, Azure and Semantic UI
- Developed [a site that mimics a Github](#) profile using the Github API, Ajax and jQuery
- Extensively practiced Agile methodologies like [sprint planning](#), standup-meetings, code documentation, effort estimation (via Pivotal Tracker) and some integration/unit testing
- Practiced database design fundamentals in a full-stack environment for two years
- Experimented with parallel processing and Blockchain technology

### Database Design, Java, C++ & SQL

Sep 2016 – Jun 2017

- Programmed in Java & JavaFX for 18 months
- Developed a Sorting Algorithm Demo that sorts moving bars by value and color
- Reconstructed legacy Java code for 97' into the latest version of Java FX
- Studied the essential computer science data structures and algorithms using C++
- Practiced database design in-and-out for a year at CCC and Assembly for a term

## Education

### Applied Bachelor's in Computer Science *GPA 3.6*

Western Oregon University - Monmouth, OR Jun 2020

### Associates in Computer Systems and Info Tech. *GPA 3.3*

Chemeketa Community College - Salem, OR Jun 2018
