San Clemente, CA. //**github.com/maxwou** //**linkedin.com/in/stoyanov-maksim**

Projects

- Designed and developed Beyond the Tutor, a web application for Western Oregon University's tutoring center in Visual Studio using ASP.NET MVC 5, Entity Framework, SQL Server, JavaScript, C#, Azure and Semantic UI
  - Added a modern and slick designed login/register under three types of accounts
  - Designed a simple but effective timesheet for tutors to log their hours worked
  - Developed backend mechanics that would allow admins to have full control over accounts and oversee current active/inactive users, delete/disable things and more
- Designed and developed a website to showcase GitHub contributions using Github's REST API, Ajax and jQuery
- Followed Agile methodologies in bi-weekly sprints, including Scrum meetings, backlog refinement, user story estimates, and review

Experience

Psychiatric Assistant in Mental Health & Relapse Prevention   **Feb 2021 – Present**
A Mission for Michael – San Clemente, CA

IT HelpDesk   **Jun 2019 – Aug 2019**
Mid-Willamette Valley Community Action Agency

- Developed credit planner web-application for them. It has increased productivity and efficiency for student-teacher credit calculations and projections
- Designed a database schema for the Home Youth & Resource Center branch
- Fulfilled IT-related tasks like wiring data cables, prepping network sites, updating & refreshing software en masse, repairing computers, and using Spiceworks' ticketing system.

Education
